1. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to teach or suggest a press for making a food patty as defined in claims 1, 8, or 24. The closest prior art disclosed by Glenny, Stiegler, and/or Rogan has all been discussed in the previous Office Actions. None of these references teaches or suggests the combination of disc-weight member and a flat panel member wherein the flat panel corresponds generally in shape to the bottom surface of the disc-weight member as recited in claims 1, 8, and 24. For example, Glenny discloses the flat panel member (9) to be a solid circle shape which does not correspond to the ring of the bottom surface of the disc member (4) which is instead a ring shaped (see Figs. 1 and 3). The other references also show the flat panel member to be of different shape than the bottom surface of the disc-weight member.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
